# **Always Compliant**

Once you setup your company and its address, the Kiosk will determine all the legal documents and posters that need to be available for the employees to view. The Kiosk will automatically download the posters and documents from the cloud service. Your kiosk is ready to use. The Kiosks consists of a touch screen tablet that has a full page screen to display the forms in a full page size format.

# Labor Law Compliance

Some federal and state laws require employers to provide notice of employment laws to employees (and in some instances applicants) by posting labor law posters in the workplace so that employees are informed of their employment rights. If a company has one or more paid employees, then most likely the ministry will be required to post some labor law posters

# **Failure to Display Posters**

Organizations that do not have the appropriate state and federal labor law posters posted may be subject to citations, fines, penalties, and/ or damages from lawsuits. Businesses are encouraged to consult with a local licensed attorney specializing in employment law to determine all of the federal, state, and local employment laws that apply to their organization.
