Benefits
Chip Holds Critical Data
NFC Technology
No Batteries Needed
Permanent
Reusable/Updatable
Cloud Backup Service

Features
Critical Medical Data
Embedded NFC Chip
Free Smartphone Software
Notification Service
SMS/eMail Messaging
Stainless Steel Chain
TAL Cloud Tracking

Integratied
TAL Cloud Services

Advanced Medical Alert Tags
A plastic tag that can be attached to person as a pendant or a necklace. The internal chip houses your critical information and links to the TAL Cloud Services. EMT can easily access the information and automatically notify your emergency contacts. (ICE).

Printed QR code
QR code is printed on the tag to enable any Smartphone User to Download the program needed to read the contents of the Tag. The user simply uses their QR reader to download and install the application from the Google Play Store for Android or Apple Store for iPhone.

Who—When—Where
Whenever the Tag is read by a Smartphone the Smartphone will send a message of Who read the Tag, When was the tag read and Where was the person at the time the tag was read. .

Integration with EMR and Emergency Data
EMR data is written to the internal NFC chip to provide Emergency Responders quick reference Critical TAL and Essential Care instructions.
